Kycon Adds Locking Type DC Power Jack and Plug

San Jose, CA – Kycon introduces a locking type DC Power Jack to their KLDX series. The locking type is available as 2.0mm diameter and 2.5mm diameter. Both options are available with or without a center peg. Kycon also offers mating plugs for over molded cables.

When used with Kycon plugs, these new DC Jacks offer a positive lock that cannot be easily disengaged. This is important for applications where power must not be interrupted. The jack can also function as a standard jack if used with non-locking plugs.

Key Specifications:

- Available 2.0mm and 2.5mm diameter
- Similar footprint to Kycon standard DC Power Jacks
- Built-in DC On/Off Switch
- Mates with Kycon locking plugs KLDX-P-0202-A-LT and KLDX-P-0202-B-LT
- Mates with Kycon custom cable locking plugs KMCX-2.1DC-LT-XXX and KLDX-2.5DC-LT-XXX

Applications:

- Laptop and Palm computer
- Portable Modems
- Radar detectors
- Other portable devices
